Note:

The chip pictures shown above are pictures of APEX's Unismart chips.

All other brand or product names mentioned are intended to show compatibility only.

Unismart Product Code: Some product code is ended with "-L1". The "-L1" means: "Shipping lock" problem of the printer model can be solved;

Unismart Product Code: Some product code is ended with "-N". The "-N" product code means it contains non-original information;

The Jig with "standard" means it is standard configuration for the first-time buyer. "optional" means it costs extra.

The red words mean the new models updated by this version.

Note:

The chip pictures shown above are pictures of APEX's Unismart chips.

All other brand or product names mentioned are intended to show compatibility only.

The Jig with "standard" means it is standard configuration for the first-time buyer. "optional" means it costs extra.

The red words mean the new models updated by this version.
